

If you'd like a physical, bookish copy of the content you just read, following is a piece of instruction from the creator of the content on how to do it!

This book comes in 3 parts:

1. Body text { > print the PDF file using a normal home printer with lightweight printer/text paper; uncoated, pulpy texture is strongly recommended; fold the pages}
2. Cover/Jacket { > print the last page from this PDF file and cut out the shaded spiral shape with precision; cardstock in any color that reminds you of the content is recommended; make sure your cover is about 1 in or 2.5 cm wider and taller than your body text pages}
3. Ribbon binding { > use wide, soft, long ribbon; with a hole puncher or knife, cut out circular holes about 0.25 in or 0.65 cm in diameter on the cover, and make sure the holes sit about 0.25 in or 0.65 cm away from the top and bottom edge of the cover; gently thread your ribbon through the holes so you don't rip the paper; tie a knot on the outside}
